Informed Choice for Employment

Ask the person where they'd like to be (or what they'd like to have) in 1 year, 5 years, or 10 years.

- Where do they want to live?
- What do they want to be doing?
- What do they think they will need?
- What will they want to have?

Talk through the items- do you want to live by yourself or with a roommate? Are you going to cook all your meals or do you want to eat out sometimes? Discuss the cost difference between the options.

Then create two scenario costing the items listed. One more tightly budgeted, and one with more flexibility.

### Simple Example:
